# It's a

When the pandemic started in March of 2020, most of thought it wouldn't last as long as it did. The 2019-2020 school year came to a close with everyone saying their farewells virtually. Little did we know that we would be spending the whole summer under lockdown and the better half of the next school year attending school on our laptops at home. Here's a look back at how and when the pandemic started and our lives were forever changed.

**Trump Declares a National Emergency**

As part of this announcement, Trump issues a ruling blocking non-U.S. citizens from entering the country if they have been in areas that are experiencing COVID-19 outbreaks, including China, Iran, and 26 European countries. The order allows the government to unlock billions of dollars in federal aid to help state and local governments with their COVID-19 response.

**The U.S. Becomes the Global COVID-19 Epicenter**

By the end of March, the U.S. has more COVID-19 cases and deaths than any other country. The CDC counts over 81,000 cases and 1,000 deaths, more than in early epicenters including China and Italy, according to data gathered by The New York Times.

# IS SUMMER

This was a summer like no other. Hotels had been closed since the beginning of the year. Public attractions had been closed off to visitors for months. And even though such sites were opening up again, there was a lot of public wariness about actively participating. And this was understandable.

Even though we were still facing a pandemic as the 2019-2020 school year came to a close, Panthers still yearned for the warmth of the sun, the smell of the ocean, and a chance of having a summer vacation. How did we navigate the pandemic and still enjoy a relaxing summer? While most countries were seeing a dip in new COVID-19 cases, the threat was still real.

In fact, experts predicted a second wave of various infections to hit the US during the summer. With vaccines and a cure for the virus still in development, it was likely we would be dealing with this virus for a while. But did that mean that summer plans were canceled?

## SOCIAL JUSTICE, Long overdue The Moody Park Riots

On Mother's Day 1977, the body of a Mexican-American man was found floating in Houston's Buffalo Bayou. officers involved were charged and convicted, their sentence was suspended and they got a \$1 fine.

It was the body of Jose Campos Torres (also known as Joe), a 23-year-old Army veteran who was last seen in police custody.

When the body was found, people started to ask questions about what happened to Jose. The officers involved were eventually charged and convicted for his murder, but although the

The death of Jose Campos Torres started a chain of events that culminated in a violent uproar nearly a year later in Houston's Latino community. Known as the Moody Park Riots, the event changed many lives forever and brought reflection about the racial makeup of Houston's police department.

Each time a man stands up for an ideal or acts to improve the lot of others or strikes out against injustice, he sends forth a tiny ripple of hope.

# UPWARD BOUND

Upward Bound is a one-month summer program where students can socialize, learn, and make money. Before the pandemic, Upward Bound held classes daily Monday through Thursday, plus, every Friday students had an activity at the campus or trip to an entertainment place in Houston, TX. During the school year, Upward Bound has classes every Saturday morning, after lunch students have an activity or a trip to a place of entertainment.

At the end of the year the students and staff would go on a one-week trip to visit colleges, and places of entertainment outside of Houston. In the past two summers, Upward Bound has taken students to Memphis and Nashville, Tennessee, and Orlando, Florida. In the past, students have even ventured to Los Angeles, California!

# ASTRO-101

2020 could easily be defined as a "stellar" year if you are an astro-nerd. Whether you are into Astronomy or Astrology, here are some facts about the two subjects to help you in your journey amongst the stars!

## Astronomy vs. Astrology

- Astronomy is the scientific study of the universe and its contents outside of Earth's atmosphere.
- Astronomers examine the positions, motions, and properties of celestial objects.
- Information and data collected by Astronomers are documented and verified by astrophysicists.

- Astrology involves the study of movement of celestial bodies, but it is also a set of beliefs and thoughts that those movements have an effect on an individual's personality and have a bearing on their future.
- ONLY Astrology makes predictions about future events on Earth and, in particular, in an individual's life.
- Astrology has been labeled as a pseudoscience or superstition, but there are many who support it and pursue it as a field of study.

The Moon is one common subject where Astronomy and Astrology cross over. It is thanks to our Sun that we have the different phases of the Moon, this is because the Moon does not produce its own light. The illuminated part of the moon changes each night, so be sure to keep an eye in the sky!

In Astrology, the Moon and its phases are used to figure out individual's emotions. This is believed to explain why some people experience a lot of unusual feelings during a Full Moon. The same could be said during a New Moon, except with a sense of calm.

From eclipses to the Rare conjunction of Jupiter & Saturn (Bethlehem Star), 2020 had some amazing celestial events that were true sights to behold! With that in mind, let's see what 2021 has in store!

May 26th - Total Lunar Eclipse // Will be visible throughout the Pacific Ocean and western North America!

June 10th - Annular Solar Eclipse // Will be visible throughout the northeastern United States!

August 22nd - Full, Blue Moon // Occurs every 2.7 years, also known as a "Sturgeon Moon" by early Native American tribes because of the large sturgeon fish of the Great Lakes that were easily caught this time of year!

November 19th - Partial Lunar Eclipse // Will be visible throughout most of the Pacific Ocean and North America!

Curiosity about outer space has led to some of our greatest discoveries in technology, science, and ourselves as humans. Studying outer space in any form has encouraged us to grow and learn, even without us knowing it.

Going to School to Learn

The Struggle is Real...

## Northside Goes Virtual-ISH

The coronavirus pandemic has disrupted the 2019-2020 academic year in unprecedented ways, leading to school closures across the country. COVID may have rocked our world this year, but schools have heroically toughed it out and adapted their environments to keep kids learning. Without passing periods, lunch periods,

and extracurricular activities, it's been a hard year to get to know one another outside of academics. The motto "We're all in this together" really rang true for lots of kids and their families. In the end, even when we haven't always been together in the classroom this year, the learning has continued.

TIPS FOR STUDENTS

### VIRTUAL LEARNING

#### Wear Blue Light Glasses

Blue light is emitted through digital screens and can cause eye strain, retina damage, and dry, watery or irritated eyes. Blue light glasses are specifically crafted to block or filter the blue light given off through screens.

#### Take Frequent Breaks

"Breaks reduce stress and anxiety while improving productivity, focus, and self-esteem." Memorial Regional Health

#### Get in Some Exercise

Physical activity can promote better learning. The CDC recommends teens get at least 60 minutes of exercise per day.

#### Have a Dedicated Learning Space

Designate a spot that is free of distractions and stocked with appropriate supplies.

#### Schedule Learning and Studying Time Separately

Since learning and studying will take place in the same environment, schedule specific blocks of time to learn new material and to review already-taught material.

### HOW TO TURN YOUR HOBBY INTO A BUSINESS

1

#### Identify Your Home Business Idea

Spend some time conducting researches to learn whether this is the right fit for your experience, interests, and target audience.

2

#### Test The Concept

You can start your business as a side income to test it out first. Make sure you pay attention to the cash flow detail and calculate all the business expenses.

3

#### Create a Business Plan

Your business plan should include, an executive review, company description, list of products, market tactics, marketing plan, metrics and milestones, management team, and financial projections.

4

#### Build Your Brand

In order to get recognized, you need to build a unique brand of your own. You need a business name and logo that represent your business identity.

5

#### Develop Your Marketing Strategy

Your products and services are awesome, and the world needs to know them. Set up your marketing strategies starting from free social media accounts. Do researches and learn from your experience.

# BIDEN BEATS TRUMP!

## Election Year

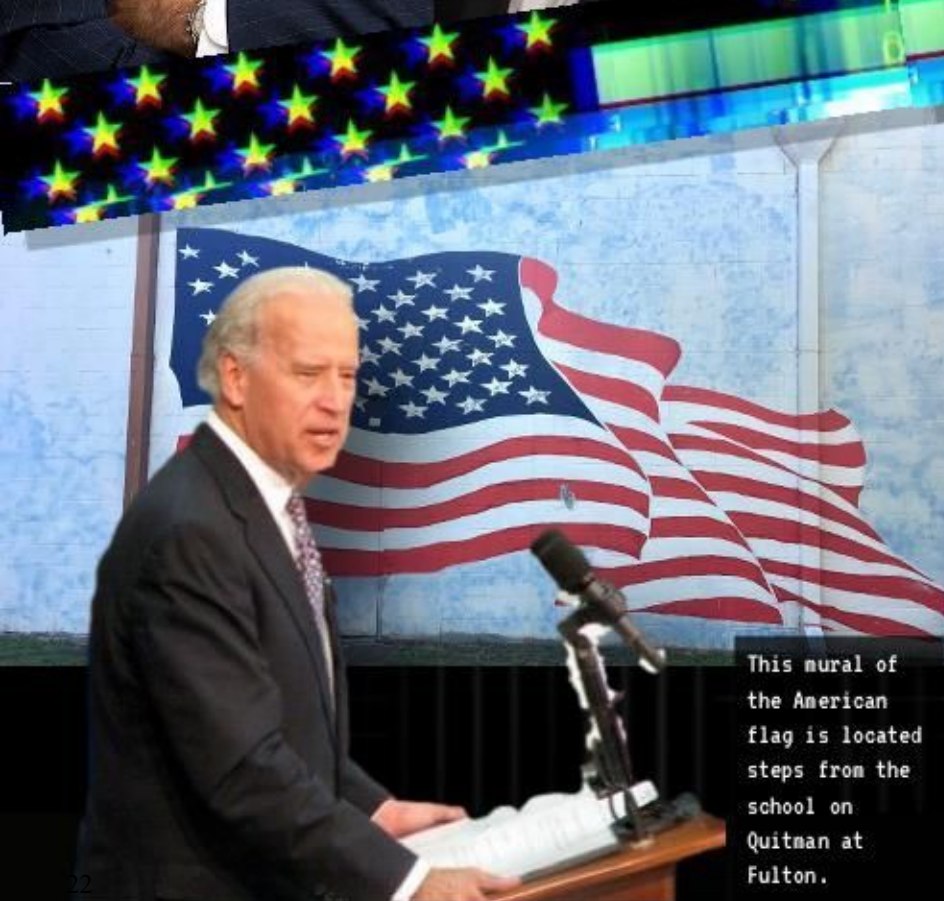

### President

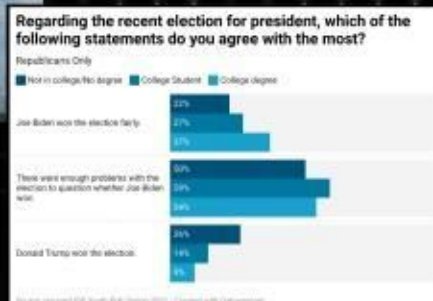

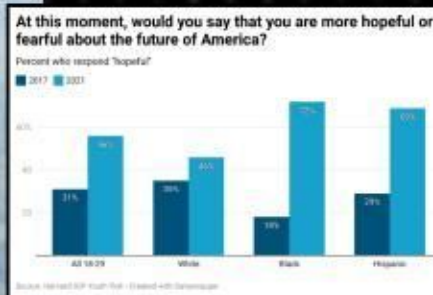

Democrat Joe Biden defeated President Donald Trump to become the 46th president of the United States on Saturday and offered himself to the nation as a leader who “seeks not to divide, but to unify” a country gripped by a historic pandemic and a confluence of economic and social turmoil. “I sought this office to restore the soul of America,” Biden said in a prime-time victory speech not far from his Delaware home, “and to make America respected around the world again and to unite us here at home.”

# DIVIDED

Not only is the nation divided on issues, but it is also at odds about such basic notions as the meaning of the country, the meaning of political institutions, the power of the presidency, the role of the media and the presence of racism. Those are not merely disputes over who should be president, but they are also disagreements about national identity - what this country is.

## WHAT DO YOUR CROCS SAY ABOUT YOU?

Stores and schools closed. Families sheltered at home. But the coronavirus pandemic didn't stop Americans from buying more Crocs.

The foam plastic footwear, known for being easy on the feet if less so on the eyes, is one of the few major retail brands to navigate the Covid-19 era successfully. For some, Crocs are the perfect shoes to wear when no one can see you wear them. For others, a pair of the colorful clogs is a fashion statement.

The 90's are back! We found some past Northside High yearbook photos of what students wore in the late 1990's and paired them with students today. Let's just say, fashion sure is cyclical, and we've got the Crocs to prove it!

## Houston Chronicle Athlete of the Week

Also known as a top-tier quarterback, Holmes is on a tear on the basketball court, too. There is a reason why people in the Houston area call Ronald Holmes a "Young Bull." He is strong, athletic and can play / defend multiple positions. This dual sport star is as good on the basketball

court as he is on the football field. He knows how to use his strength and athleticism so he often has a built-in advantage over his opponents. He is a capable shooter from the perimeter, a capable rebounder, plays with high energy and effort and is a natural leader on the floor. He is most effective when he is playing down hill, but any role or position this young man is put in, he is successful.

# Persevered

To say we had a challenging school year is putting it lightly. From the ups and downs of virtual learning to the safety protocols of working on the frontlines during a pandemic, if it wasn't for the dress-up days, snacks, key people like Ms. Castillo juggling the phones and the front office, and the commodity of our co-workers, we would have never made it through. These are just a few of the things that helped us persevere.

### Preventing the Spread

These hardworking ladies are vital to the health and safety of the entire Panther Nation, cleaning and disinfecting our school from top to bottom on a daily basis. The faculty, staff, and students would not have made it through the year without them.

### The Real Frontliner

Nurse Guillory single-handedly lead us through the darkness of a pandemic filled with many unknowns. Putting her life at risk everyday, she cared for each and every Panther without hesitation. She is our hero!

### Mask-Up

Teachers came to school prepared and ready for the front lines of the classroom during hybrid school.

### THANK YOU, NHS ADMINISTRATIVE ASSISTANTS

NORTHSIDE HS THANKS YOU FOR ALL THAT YOU DO!

### Keeping Us Connected

Mr. Rodriguez single-handedly revamped and managed the school's social media pages, keeping well-informed.

### Coffee Talk

Mrs. Meacham enjoys a mid day pick-me-up in the courtyard

### Snack Time

Top Left: Mrs. Wight serves some yummy pastries at the English Department's end-of-the-year meeting. Top Right: During Teacher Appreciation Week, Mr. Leal went from classroom to classroom, surprising the teachers with some well-deserved ice cream.

## VIDEO GAMES VS. VIRTUAL LEARNING

There were many challenges that both students and teachers faced this school year during virtual learning, but one of the most challenging was the temptation of playing video games instead of paying attention in class. This obstacle existed both at home for remote students as well as in the classroom. So, we surveyed Northside students about their game playing to have a better understanding of this "phenomenon".

### What genre of video games do you prefer to play?

**How many hours a day on average do you play video games?**

- 1-2 hours
- 2-5 hours
- 5-10 hours
- 10+ hours
- I don't play video games that much

**How could teachers incorporate video games into their curriculum and lessons?**

"Use well-known problems characters in stories."

"Play video games with us."

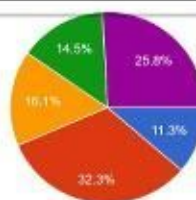

"Honestly, they can't, because school causes stress and video games don't; they are two completely different things."

"Buying me a ps4."

"I guess an example would be Minecraft which is a game to build things. A teacher who is interested in art, building, and plots/theories of stories would definitely use Minecraft, adventure games, and many more to help students be not be bored with the lesson teachers teach."

"Video game themed assignments."

**If I did not play video games, I would be:**

## Retro Rage

The trend can't be denied: retro video games and the new popularity in gaming. Rabid collectors scour the globe for old Atari 2600 cartridges, and folks young and old can be found with old dusty consoles sitting alongside their PS4s and Xbox Ones.

This system came out in japan september 14,2001 the most popular game on it was Super Smash Bros. Melee.

The super nintendo came out in november 21, 1990 the most popular game on it was Super Mario World.

# SNOWED-IN

## *The Winter Storm of 2021*

The 2021 winter storm marked a severe weather event unlike any Texans had seen in decades, leaving millions without power and in freezing conditions. Days into the storm and its aftermath, a full-blown water crisis also emerged as well as supply chain shortages and major food disruptions. Northside students, their families, and staff members endure many of these challenges, some being without electricity and running water for several days, even weeks. Despite being out of school, we can all agree, it was no holiday.

What was one happy moment from the 2021 Snow Days?

# DOCUMENTING A PANDEMIC

## Yearbook Class

With a school year in the midst of a pandemic and most students going to school remotely, the yearbook staff knew they had their work cut out for them. Documenting such an out-of-the-box year was definitely challenging to say the least. How did the staff cover events that were, for the most part, cancelled and photograph a student body who were mostly virtual? Crowdsourcing, social media, and virtual surveys were the answer. Thank you to everyone who assisted in and contributed to the making of this yearbook. It would not have been possible without everyone working as a team.

## ***Diamonds are a Girl's Best Friend***

### Panther Softball

Oh how amazing this year was to play on the softball team and head to playoffs without letting covid get in our way. During this season we faced many difficulties such as trying to play and wear a mask after running and hardly being able to breath and not being able to shake our components hands after the game. Although we were faced with those issues we still stayed strong as a team and pushed through the season. We lost some and we won some and at the end of the day as long as we were able to play, we were happy. Something that our coach used to always say was never walk, always hustle and it may sound plain but that stuck with us the most and what ever the case may be it goes for everything if you want something in life never walk for it hustle and achieve it.

"A bird can fly, but a fly can't bird."

# CAN'T STOP THE MUSIC

Fine Arts Conquers the Challenges of Virtual Learning

"How can we possibly direct a band or conduct a choir over Microsoft Teams calls?" is what the Fine Arts teachers thought as we embarked on an unprecedented school year impacted by the pandemic. They ultimately did what they do best, they thought outside of the box, came up with creative solutions, and, in the end, rolled with the punches when things didn't turn out as expected. Ms. Cenaxo, the choir

teacher, used special software to record her students performances and successfully produced an inspiring vocal performance that a few of her brave students participated in. Ms. Reyna, the dance teacher, gave her in-person and virtual students creative assignments they could both participate in. Although, we did not hear much from the band this year, we know they will come back shining next year.

Fine Arts Department, 2020-2021!

[The band director, Mr. Richardson, faced many challenges this school year directing his musicians over Teams calls and the cancellation of most band performances they would have had during a normal school year.]

## VICE Versa

The Fine Arts Department had to adapt the most when school became virtual. Here are a few things that reminded us of the arts before the pandemic and a few that illustrate how that all changed.

Photographs of past school years decorate Mrs. Cenac's office window, reminding us of the old days when the choir actually sang together in person.

Memories of when the Pantherettes all danced together in the dance room and stayed busy with the many performances they would normally have during the school year.

Now, the choir teacher coaches her students virtually through Microsoft Teams.

Singing on camera takes a lot of guts!

The Pantherettes participate in Purple Out day virtually through social media.

**Should Students Be Allowed To Eat Lunch Outside In the Courtyard?**

98.8%

YES

## What is one pet peeve you have when it comes to teachers?

**SHOULD THE SCHOOL TIMES REVERT BACK TO THE EARLIER TRADITIONAL HIGH SCHOOL SCHEDULE OR STAY THE WAY THAT IT IS NOW?**

I'D RATHER GET OUT OF SCHOOL EARLIER & HAVE MORE TIME FOR AFTERSCHOOL ACTIVITIES OR A JOB (7:30 A.M. - 3:00 P.M.)

I LIKE THE EXTRA HOUR IN THE MORNING (8:30 A.M. - 4:00 P.M.)

I am not saying all teachers but it's just some teachers think themselves highly than us the students and I do not like that because we of course are different they know more than I do but that doesn't mean they just get away with things because they have authority. Also I just dislike when I ask a question and they get upset saying "You should know it's in your notes" I understand it's in my notes but sometimes it's best rehearing it from them than reading them again from the notes.

- Yasmin Hernandez, 10th

## If you could change one school rule, what would it be and why?

"Pass classes with a minimum of a 60 because sometimes students try their hardest and sometimes teachers don't help them out and they usually get a 60 or some and maybe no STAAR testing."

- Kimberley Duran, 12th

"To be able to bring in outside food for lunch like McDonald's or Little Caesars."

**How do you feel about the amount of homework some teachers assign?**

"Some teachers are crazy, they give us like 3 or 4 assignments a day and expect it to be done the next day like if we don't have other classes to work on."

- Jaslyn Leija, 10th

# Students Have Voices, Too

"Make them a little longer."

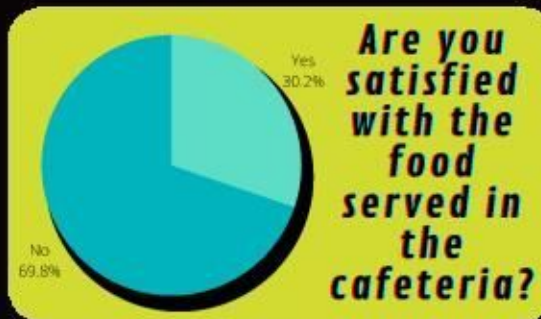

- Josue Avala, 10th

**How would you improve the school lunches?**

SHOULD THERE BE COMPUTERS AND PRINTERS AVAILABLE FOR STUDENT USE IN THE LIBRARY?

Are you satisfied with the food served in the cafeteria?

**If you could create one new club for next year, what would it be?**

"Gaming Club" - Edward Rodriguez, 10th  
"Crafting Club" - Laisha Garcia, 10th

**Should the school have more vending machines? If so, what should be in them?**

"Yes, somethings that should be in the vending machines would be energy drinks because some student work and other students just need a kick in the morning."  
- Ariel Cruz, 10th

**Which subject do you think prepares you most for life after high school? Why?**

"I believe English definitely helps a lot. English is basically a universal language and you would like to sound professional when you apply work."  
- Ana Angeles, 11th

"Yes students get hungry the real question is do you want happy or angry kids happy right so therefore feed them even if it's a simple snack."  
- Tina Perez, 12th

### A WORD FROM THE ADVISER

To say we had a challenging year creating the yearbook is an understatement. With over half of the students being virtual, we knew we had our work cut out for us. So, with some crowdsourcing for photos and some thinking outside of the box, we persevered through the ups and down and successfully documented this unprecedented school year. We hope you enjoy looking back at a time in our lives that we will never forget.

- Ms. Lindssey Baccari
